Badndung, Indonesia

Having a special interest in cloud computing and cloud-based solution development, I am currently a sixth semester student of Informatics Engineering at Institut Teknologi Nasional Bandung. With the spirit of self-development that continues to grow, I always improve my existing abilities in effective communication, unlimited creativity, perseverance and high learning spirit. I am known as a creative and reliable individual, responsible in every task and job, able to work independently or in a team. Always ready to face new challenges in the world of information technology with my basic knowledge of computer science and programming skill.
